

ABOUT VILNIUS

Vilnius is internationally recognized as one of the most knowledge-intensive and innovative cities. We are not by the sea, but we still have our own lighthouse – the concentrated energy of minds bursting with fresh ideas and glorifying the city with new scientific discoveries. With 14 universities, 16 research institutes, and 5 science and technology parks, Vilnius and Lithuania in general is proud of its record of scientific achievements in biotechnologies, innovative medicine, and laser and light technologies.

Located at the geographical centre of Europe – Vilnius is never more than three hours away from any European destination by air, with an airport less than 15 minutes away from the city centre.

Vilnius, with its first-class business infrastructure along with unique cultural riches, has become an attractive option for international meeting planners and event organisers.

ABOUT VILNIUS

Vilnius presents an authentic portrait of Lithuania. We live at the juncture of three cultural zones – Central, Northern and Eastern Europe. Heavy stone streets, letters of tiles, stained glass illustrations, massive metal gates, labyrinthine Old Town, sleek business district, its elegant centre, many open squares and parks, historic suburbs, and astonishing with its architectural glory – the title pages all of which blend together into a seamless whole. It is a compact city where major meeting facilities, hotels, cosy restaurants and important city sights are within easy reach.
